Dear Staff;

I noted your item in the May/June issue regarding the Bally Arcade and the response which covered only one source of material.

The ARCADIAN Newsletter has been published since November, 1978, catering to the needs of the Arcade owner exclusively. Our Newsletter contains software programs, tutorials, hardware modifications, hardware additions (memory expansions,etc.), late news, and sundry items of interest to the Arcade owner.

I would appreciate a mention in the next available issue to inform your readers of the existence of an alternative or concurrent source of information, programs, and hardware. Our subscription rate is \$12.50 per year.

Yours very truly,

Robert Fabris, Publisher, et al
